

# 40 U.A.S. XXX

## Resolution to Perform UA Website Maintenance Through the Student Activities Office

Whereas the Undergraduate Association (UA) website is an essential aspect of our communication to undergraduates; and

Whereas a lack of institutional memory hinders maintenance of the website year after year; and

Whereas the demands for maintaining the UA website are greater than expected; and

Whereas student schedules are unreliable;

**Be it resolved, by the Undergraduate Association assembled in Senate:**

That the UA involve the Student Activities Office (SAO) in maintaining the UA website; and

That the SAO build a strong infrastructure behind the website; and

That the ultimate goal is to create a set of tools that will enable anyone appropriate, regardless of technical ability, to update sections of the UA website; and

That the technical staff in the SAO can provide insitutional memory to this process and will be able to update the website reliably; and

That the source code behind the website will always be available to the UA to modify; and

That no money shall be allocated for this task, unless the Senate shall pass approving such.

Respectfully submitted,

Michael Bennie  
UA Vice President
