Did You Know?

❖ 45 million Americans have no form of health insurance.

❖ Universal Single-Payer health care would guarantee coverage for every US citizen for the same cost or less than our current system.

❖ The US has the least percentage of people insured in the developed world, yet pays the most per capita for health insurance.

❖ Single-Payer health care is endorsed by Al Gore, Ralph Nader, Dennis Kucinich, Carol Moseley-Braun, and Al Sharpton.
