

## **INTRODUCTION**

My son, in Bafia I told you that the problem of the churches was not keeping the Harvest because there was no harvest to keep. Instead of waiting on Me to receive some more, you set out to mobilize and win people to Me. It is good and correct that you should prioritise evangelism, soul-winning and church-planting in your personal life. People are being reached and some of them will become useful members of the churches. However, had you waited on Me in a lengthier way after the Bafia encounter, I would have spoken to you on why there was no Harvest to be kept.
