This Lab Session is intended as a programming practice session in preparation to Quiz 2 of Friday 13 April 2001. (It covers mostly arrays, structures and pointers.) Select one or two problems from the following from which you will benefit most.

**Problem 1**  
(Matrix manipulation)  
Problem 15, p536, Uckan.

**Problem 2**  
(Matrix-to-matrix data transfer)  
Problem 22, p537, Uckan.

**Problem 3**  
(Structures and matrices)  
Problem 24, p537, Uckan.

**Problem 4**  
(Problem set help session)  
If you have any questions about Problem Set 8 or the coming Exam, please make use of this lab session to ask questions.
