Greetings,

The Portland Technology Development group of Intel Corporation has several openings for physical science Ph.D.s to support/direct R&D of advanced processing methods. Candidates hired for these positions will be responsible for developing the next generation of Intel's microprocessors.

Ph.D. candidates in Materials Science, Chemistry, Chemical Engineering, Physics, Electrical Engineering or related fields are encouraged to apply. Criteria for selection include: a strong academic record, demonstrated experimental expertise, an ability to drive and take responsibility for projects and a solid peer-reviewed publication record. Experience using and maintaining complex scientific equipment is preferred, but not required.

Openings are immediately available at Intel’s primary development facility (Ronler Acres) located ~10 miles west of Portland, OR.

Interested candidates should email resumes to david.j.towner@intel.com
