

Channel Unit Sample Response

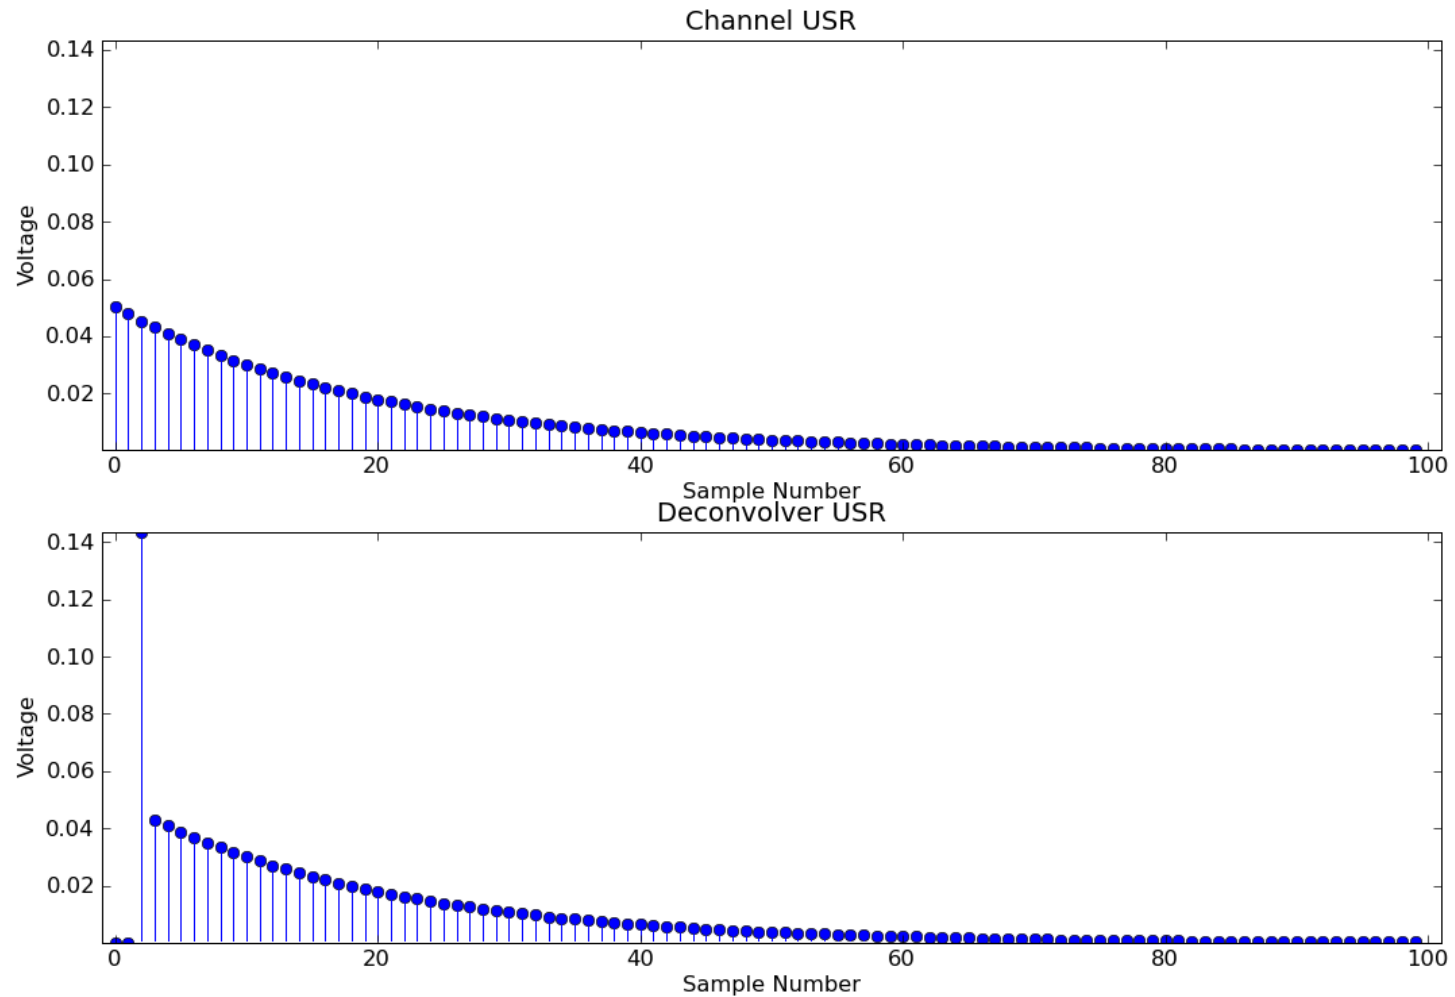

Results Using Deconvolution with Channel USR

(Note Noise Magnification but transitions look faster)

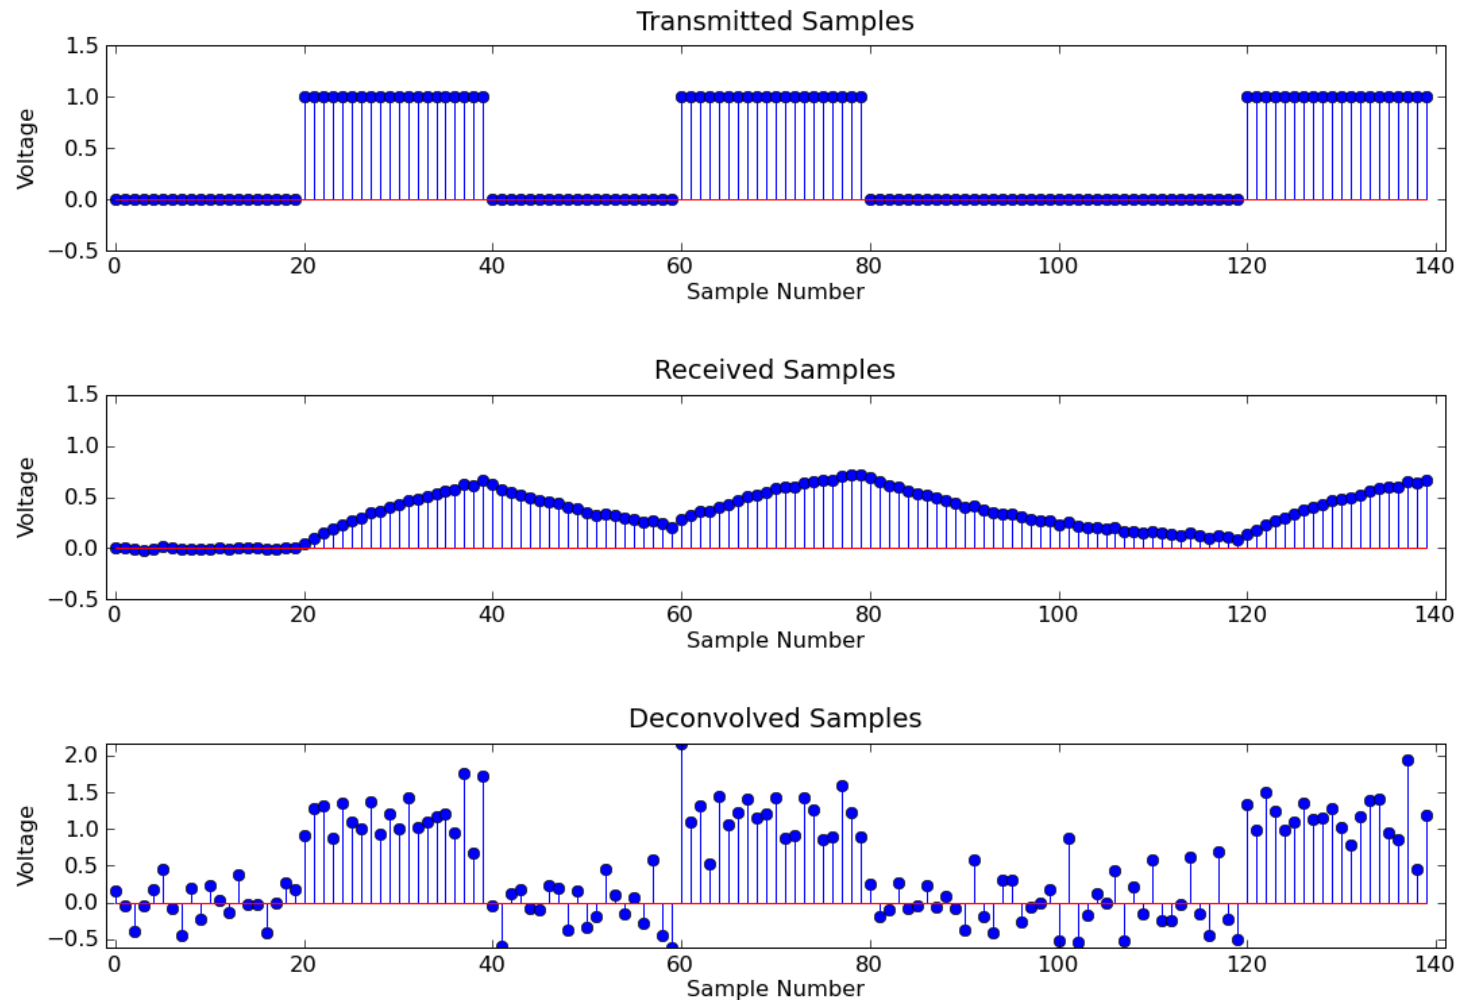

A Modified USR for Deconvolution

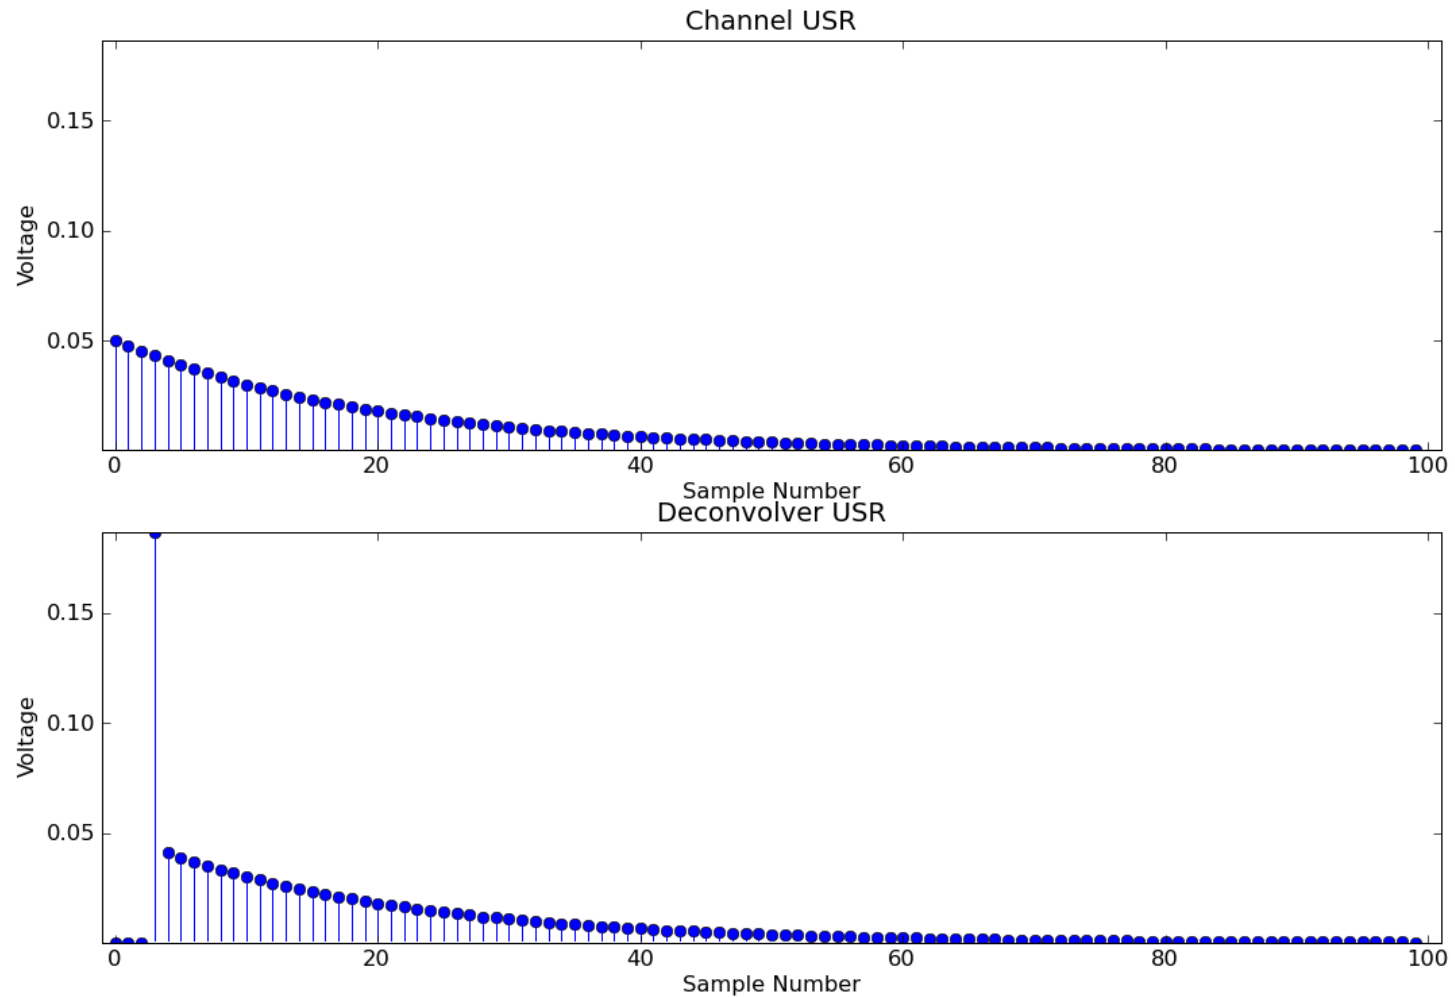

Channel USR and More Modified USR for Deconvolver

(Not as much noise Magnification and transitions still look faster)

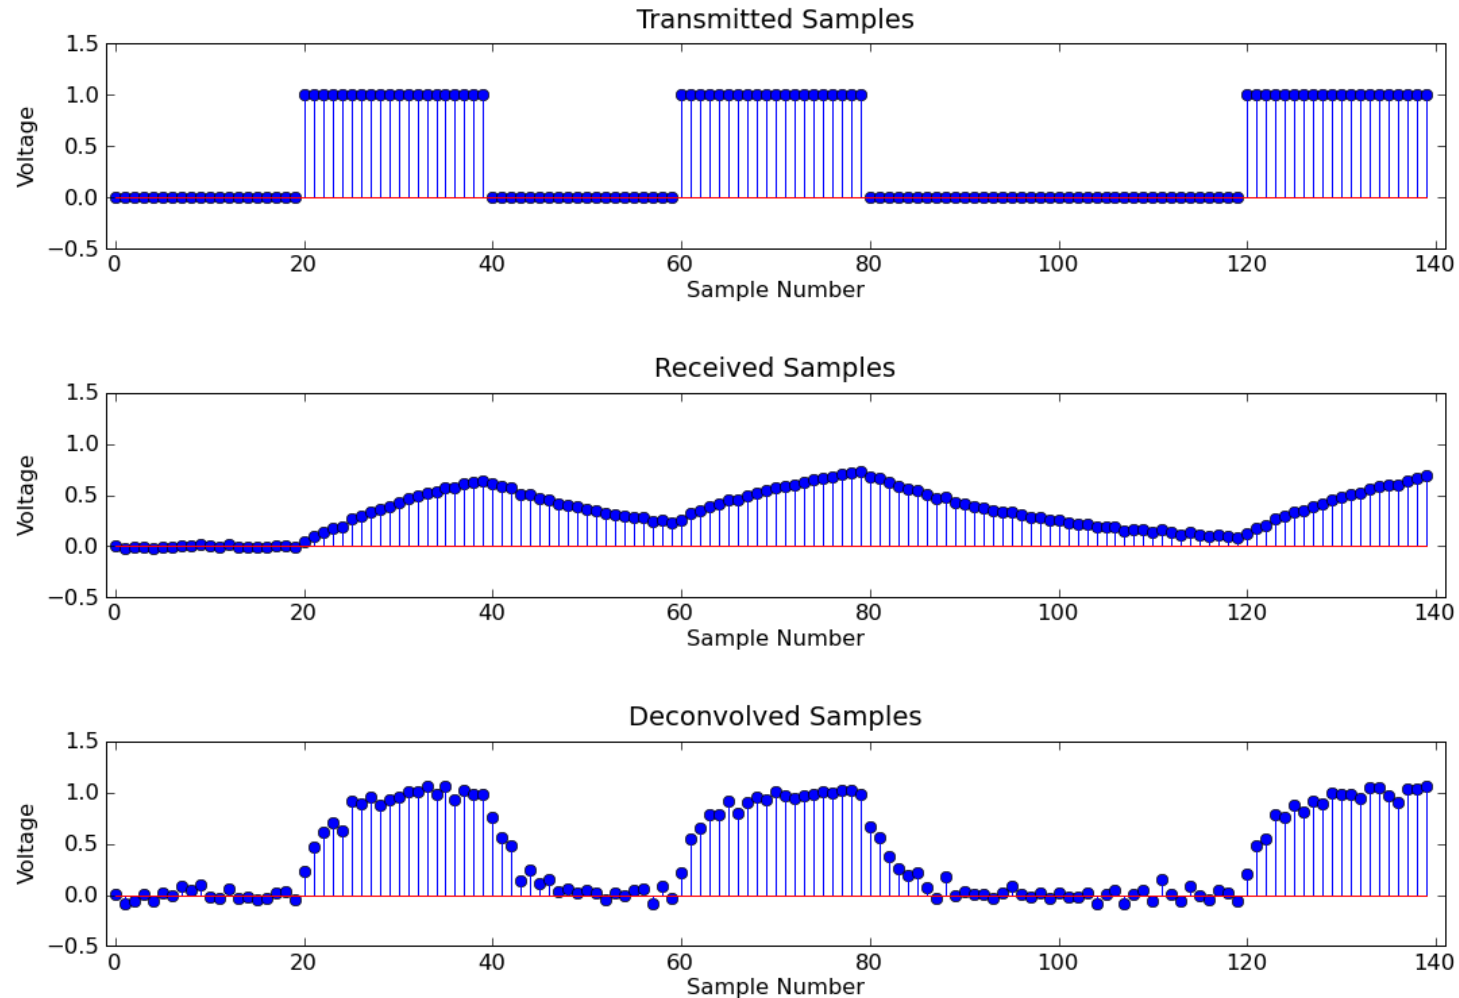

A More Modified USR for Deconvolution

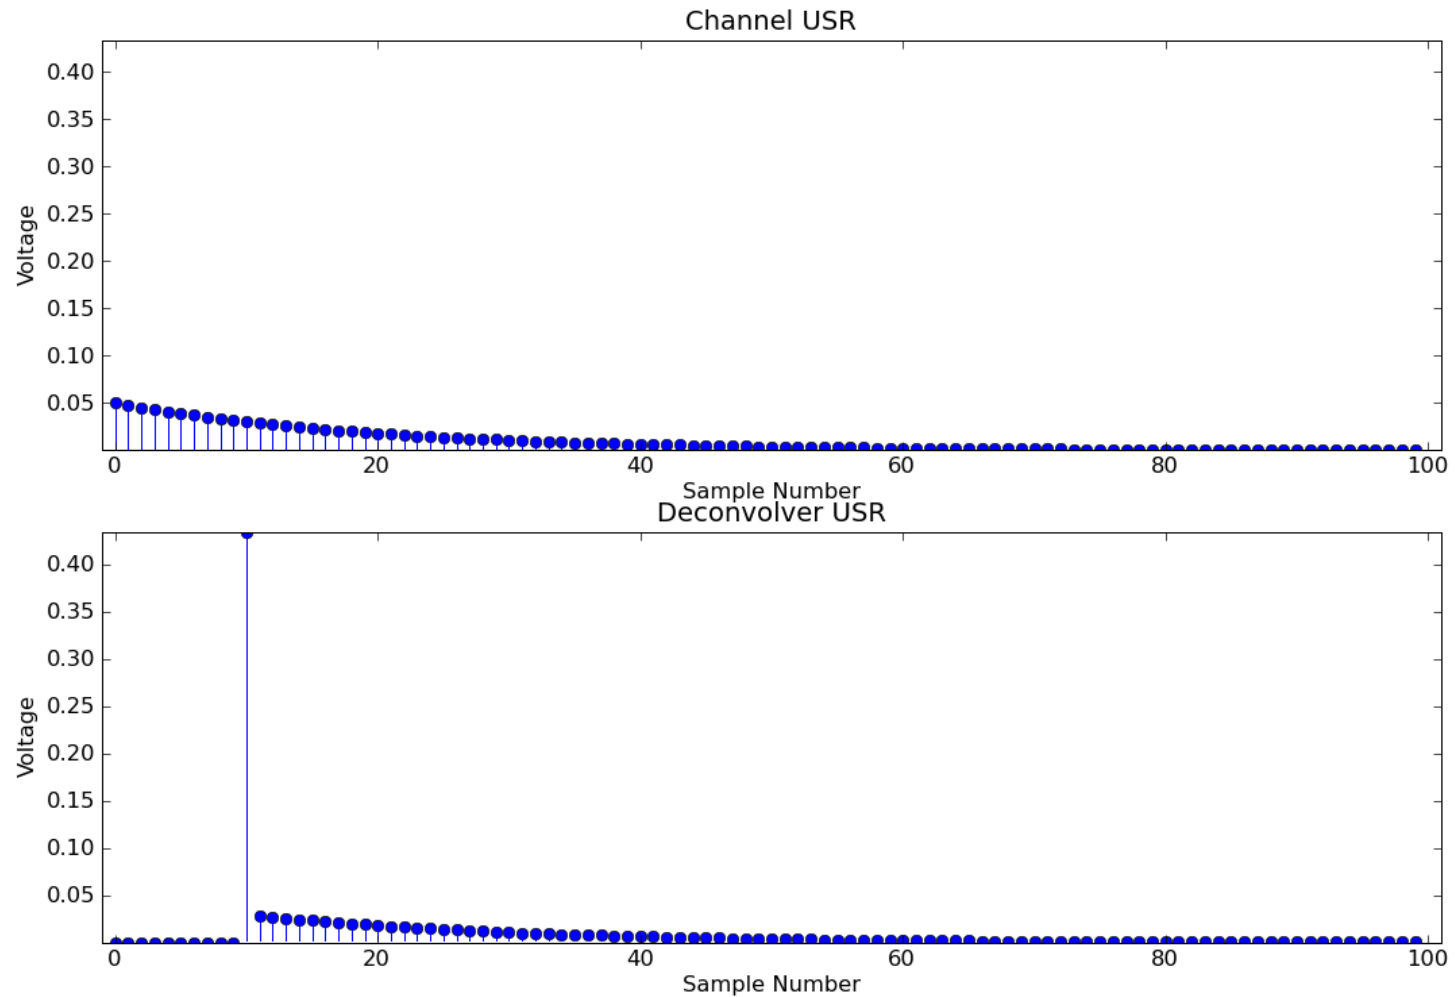

Channel USR and Modified USR for Deconvolver

(Even less Noise Magnification, but transitions not as fast)

An Even More Modified USR for Deconvolution

Channel USR and Modified USR for Deconvolver

(Little noise magnification, but little improvement in transition speed)
