

active learning!

you can fill out this chart as you watch the lecture. use it in whatever way is helpful, and I'll show you my answers at the end

type of management	what does this type of management allow a switch to do	example protocols	how the protocol works	pros/cons?
Queue Management		DropTail		
		RED, ECN		
Delay-based Scheduling		Priority Queueing		
Bandwidth-based Scheduling		Round-robin		
		Weighted Round-robin		
		Deficit Round-robin
