1. Reduce to the third, and sixth words of the answer.
2. Swap the first and last letter.
3. Swap the second and fourth letter.
4. Santa's in Rhode Island! Swap a syllable Santa is famous for saying with the postal abbreviation for Rhode Island.
5. Replace the last letter with the more common name for the musical note $A b b$.
6. Replace the first letter with the letter immediately preceding it in the alphabet.

Take the ANSWER PASSED TO YOU and black out the first appearance of each letter, reading row by row, left to right, top to bottom. If the letter appears twice in the ANSWER PASSED BACK TO YOU, black out the first two occurrences of that letter.

Solve the grid as a Light Up puzzle by placing lightbulbs ( 8 ) satisfying the following constraints:

- Every non-blacked out square must be lit.
- A square is lit if it is in the same row or column as a lightbulb ( $(8)$ with no blacked out squares directly between them.
- A number in a square indicates how many bulbs share an edge (not diagonally) with that square.
- No bulb may light another bulb.
