Hi Ashley,

Jeff sent this confirmation e-mail last night. I was in late this morning but our office was looking out for the delivery. It hasn't been delivered yet but I'll check the tracking information and keep you updated.

Chris

Hi Jeff,

I received word from the lab that they are ready to receive the fish. I've attached an order form with credit card and delivery address information. Please let me know if you need anything else to set up the order. If possible please mark the box as "Live animals - immediate delivery required" in case the package is sent to the mailroom first. Overnight deliveries are normally brought directly to our office so hopefully this won't be an issue. Also, would you be able to provide a tracking number when the package is shipped?

Thanks,

Chris

Hi Jeff,

I just need to confirm that the lab is ready to receive the fish before I officially place the order. Could you give an estimate of the total costs for the order?

Thanks

Chris

that's great Chris.
If you are able to get that together in next minutes, I may still be able to process order this afternoon for Wed deliv.
Thanks jeff

Jeff,

The delivery address will be in Cambridge, MA 02139. I can attach a standard MIT order form with credit card #, delivery address etc. _will that work for you?

Chris

Thanks for your email Chris.
Please forward your zip code so I may calculate UPS S&H into order.
Payment may be processed via ppal or via ccard.
Thanks jeff

Subject: MIT Order for Pseudoinelopsis SP L152

Hello Jeff,

Several months ago I contacted you regarding an MIT researcher's interest in purchasing Pseudoinelopsis (Stock # SPL152). The purchase has been authorized and Ashley Browning informs me that you have that species back in stock. How would you prefer me to submit the order (email, fax. Etc.)? I wasn't able to pull up our previous e-mail exchange so I apologize if you've explained this earlier.

Please let me know what information you will need to set up an order.

Thanks,

Chris
