MIT Eye Service: Contact Lens Fees

The MIT Medical Eye Service offers comprehensive contact lens care including fitting, dispensing, and consultation. Patients interested in being fit for contact lenses must schedule a routine eye examination and then a fitting visit. For your convenience the lenses can be ordered for you and dispensed by the MIT Eye Service. Periodic follow-up visits are recommended to evaluate the contact lenses on your eyes.

Patients who are members of the following health plans are **not** charged for the comprehensive eye examination at the MIT Medical Eye Service:

- Traditional MIT Health Plan
- Flexible MIT Health Plan
- MIT Student Extended Insurance Plan*
- MIT Affiliate Extended Insurance Plan*

All other patients will be responsible for paying the comprehensive eye examination fee.
